
Soldering Gun Wiring Diagram

rt-175 electric soldering gun - ridgid - the rt-175 electric soldering gun is capable of soldering joints in copper tube up to 3" diameter while using a standard 110v, 15a circuit. the soldering gun will heat copper to temperatures in excess of 750°f which allows it to successfully melt solders used in plumbing applications - from the 50/50 solders to the 95/5 lead-free types. **rt-100 mini electric soldering gun - ridgid** - rt-100 mini electric soldering gun thank-you for purchasing the ridgid rt-100 mini electric soldering gun. it is designed to safely heat copper tube and fittings to solder joints. the rt-100 uses resistance heating to melt the solder without the danger of using an open flame. it is a safer, faster method of soldering copper tube. **model wes51 electronic soldering station** - replace soldering tool with known good tool and recheck tip voltage. • refer to tool troubleshooting guide • check for continuity from pin #5 of tool receptacle to line cord ground pin. • check wiring from tool receptacle to line cord ground pin - repair if defective. model pes51 50 watt soldering tool product description **build your own resistance solderer - southwest cyberport** - soldering, by building your own resistance soldering unit. what is a resistance solderer? it's very similar to the familiar soldering pencil or gun, in that it uses a resistive metal to convert electricity into heat, permitting you to apply the heat at a specific point. it differs from the conventional soldering gun in that the piece to be **coleman cold heat soldering tool manual** - soldering iron. i made the heat of my soldering iron adjustable by wiring a light dimmer switch iron i had much better control over the heat, eliminating both "cold" joints and vaporized lead. popular ... weller model 8200 electric soldering gun w/storage case and a solder iron. gun has two heat settings, 100/140 watts. ... **852 smd rework soldering station manual** - 852 smd rework soldering station manual ... the hot air gun 10) handle of the tip 11) sponge for cleaning of the tip 12) stand for the tip 13) hot air welding head for removal 14) power switch for soldering tip 15) power switch ... hold the soldering head, aim at the soldering material. the hot air will melt the soldering
